Curriculum Vitae

With particular reference to Hand Wrist and Elbow Surgery

My present practice

I am a Consultant Hand Surgeon and Lead Clinician for Upper Limb Surgery at Southampton University Hospitals NHS Trust. I have been in post since October 1998. My elective practice is confined entirely to conditions of the hands, wrists, elbows and nerves. I have a hand trauma list every week. I regularly use the wrist arthroscope and operating microscope. Most hand injuries from the orthopaedic trauma unit are followed up in the Hand Clinic (twice weekly), supported by another Consultant, an Associate Specialist, two registrars and four Hand Therapists. I provide a Tertiary Referral service for the States of Jersey, Isle of Wight and British Army (Training and Recruitment). Fulkland Islands I look after upper limb problems for the Southampton Football Club and Hampshire County Cricket Club. I have trained GPs and Physiotherapists for a Multidisciplinary Triage Team My particular interests are Rheumatology, distal radio-ulnar joint problems, Dupuytren's disease, hand trauma and wrist instabilities.

I have admitting rights at Wessex Nuffield Hospital, Sarum Road Hospital, BUPA Southampton Hospital and Jersey General Hospital.

Journal Work
